

Preserving Bursaries and Widening Participation #1: '25 Member' Amending Grace

Under the provisions of Statute A, VIII, 7, we propose the amendment of a Grace already submitted to the Regent House but not yet approved.

Grace 1 submitted to the Regent House on 23 February 2011:

That approval be given to the Council's intention to propose an access agreement to the Director of Fair Access to Higher Education, for his approval, pursuant to Regulation 12 for University Composition Fees (Statutes and Ordinances, 2010, p. 160).

Proposed amendment:

That the Council's Grace 1 of 23 February be amended so as to read:

That approval be given to the Council's intention to propose an access agreement to the Director of Fair Access to Higher Education, for his approval, pursuant to Regulation 12 for University Composition Fees (Statutes and Ordinances, 2010, p. 160), subject to both of the following conditions:

- *That, without impediment to the proposal of an access agreement due to the tight timescales involved, the Council nevertheless **demonstrates the financial need for a fee level of £9,000 through a detailed Report** to the Regent House that makes clear all assumptions made and provides all relevant data (including the data on which any graphs are based);*
- *That, under the new (2012 intake onwards) fee regime, **the University continues to provide maintenance bursaries of at least the present levels**—both the standard level and the 'enhanced' level for mature students—continuing to adjust for inflation.*
