

## Superman is back again!

While I am a second year mathmo with real name Li Guolong, there is nothing I can do about the fact that the majority students in Cambridge call me Superman or Pizza. Many of you who have heard about the first election husting last year may still remember my posh voice and concise manifesto. However, because of some administrative reasons, I was forced to quit the election. Here, I want to apologize for those myriads of people who wished to vote for me. However, since failure is the mother of success, I didn't give up running for different positions to contribute to our community and last term, I was elected as the student representative of mathematics, representing about 700 of undergraduate maths students. At the mean time, I am also a voting member in the CUSU council. On the other hand I founded the IMO (International Musical Olympiad, see [www.prchina.eu](http://www.prchina.eu)). And now, I am back again to run for the CUSU president so that I can make sure that you benefit the most from the union.

Now, I want to summarize my ideas in 3 kinds of spirit. The first one is the Olympic spirit, which says that the most important thing is not to win but to take part. And therefore, I want to do all what I can to make CUSU more popular and to let more people attend events organized by CUSU such as the elections even when they are aware that they are likely to lose. In order to do so, I will use my posh language skill to promote our events and my strong vigor to organize more accessible ents.

Secondly, I want to promote the spirit of hakuna matata. Since Cambridge is not a lazy town and just like me, most students work very hard. As a student union I wish to offer students entertainments and other ways of reducing their pressure, and I want to promote the spirit so that the students feel to enjoy their life in Cambridge rather than struggle. And I believe that my musical skill and sport ability will help me in achieving this target.

The third spirit I want to write about is the solidarity spirit. As Abraham Lincoln implied, the strongest bond of human sympathy outside the subject group relation should be one uniting studying people of all colleges and subjects. And I want to use my negotiation skill to unit people together and I will try to persuade colleges so that students of the university can use facilities in all colleges throughout Cambridge. As far as I am concerned, since the facilities will be used more if we have a strong ally between colleges, we can create a value from them without actually costing anything.

Finally, I want to insist that CUSU should represent all university students rather than a few officers, I want to keep my policy flexible and I wish to listen to students what they really want CUSU to be so that I can do what students want rather than what I want. If you have any comments or suggestions, please don't hesitate to contact me at gl288.

May Sir Winston / Jesus / Peter/ Darwin/... / (depending which college are you in) bless you.
